## Durable Hotplate Stirrers with Superior Safety Features and Intelligent Performance

OHAUS Guardian 7000 Hotplate Stirrers are designed with outstanding safety features and superior heating and mixing performance. The SmartHousing<sup>™</sup> is chemical resistant with an innovative, easy-to-clean design that channels spills away from internal components and the angled glass control panel. The bright LCD display includes intuitive icons, temperature, speed and time settings - all designed to monitor performance from across the lab.

## **Unique Features:**

• SmartPresence<sup>™</sup> and SmartLink<sup>™</sup> Technologies Ensure Supervised Operation Protect your lab with SmartPresence<sup>™</sup> and SmartLink<sup>™</sup> technologies. These exclusive features automatically shut off the heater if no one is detected after a user set "time out" period has passed.

## SafetyHeat<sup>™</sup> System Protects the Lab

An industry-leading early detection system that uses two independent safety controls to continuously monitor the electronics and shut off heating before an overtemperature condition occurs.

## Powerful, Consistent Stirring Performance

Precise stirring from 60 to 1600 rpm is made possible by the design of a powerful motor, strong magnet and software controlled ramp rate, ensuring secure magnetic coupling for viscous applications.

• Customized Performance for Precise Applications

SmartHeat<sup>™</sup> allows you to set the maximum temperature of the unit and SmartRate<sup>™</sup> enables fast or slow temperature and speed ramp rates. The programming feature allows storage of 5 multi-step programs.

# **GUARDIAN™7000** Hotplate Stirrers

## SmartHeat™

Safely control and monitor the maximum temperature preventing overheating of sensitive samples.

## SmartLink™

If the \*\*Bluetooth® link is broken, the heating function will safely shut off. Ohaus Wireless Dongle Accessory is required.

### SmartRate™

Enables to select fast or slow temperature and speed ramp rates for precise sample control.

> SmartHousing<sup>™</sup> Stays cool to the touch and is chemical-resistant.

OHAUS

SmartPresence™ Exclusive proximity sensor technology recognizes nearby users and safely turns off heating

function if none are detected.

## SafetyHeat™

Industry-leading internal protection system to assure safety in heating applications with dual monitoring of system health.
